PROFESSIONAL SUMMARY

Data Analyst with hands-on internship experience building Power BI dashboards, writing SQL queries, and cleaning data in Excel to support business reporting. Recently completed a Master of Computer Applications (MCA) with a strong foundation in programming, databases, and data structures. Additional project experience in Python and LLM-based automation, including an AI-driven resume screening tool. Comfortable turning raw, unstructured data into clear, decision-ready insights.

TECHNICAL SKILLS

Programming Languages: Python

Data Analytics Tools: Microsoft Excel, Power BI, Power Query

Databases: SQL (MySQL, SQL Server)

Data Analysis: Data Cleaning, Data Transformation, Data Visualization, KPI Reporting, Dashboarding

Other Tools: Jupyter Notebook, GitHub, PDF Data Extraction

EXPERIENCE

Data Analyst Intern — Widesoftech Private Limited, Nagpur

Jan 2026 – Jun 2026

- Built interactive Power BI dashboards to track and present key business KPIs for stakeholder reporting.
- Imported and consolidated data from multiple Excel sources, applying sorting, filtering, and validation rules to ensure accuracy before loading.
- Cleaned and transformed raw datasets using Power Query, resolving duplicates, missing values, and formatting inconsistencies.
- Wrote SQL queries to extract, join, and analyze data from relational databases to support ad hoc business requests.
- Modeled cleaned data within Power BI and structured relationships to enable accurate, real-time reporting.
- Translated raw data into clear visual dashboards, helping stakeholders track KPIs and make informed decisions.

PROJECTS

AI Hiring Agent for Resume Analysis & Candidate Ranking

Tech Stack: Python, LLM, GitHub API, PDF Processing

- Built an AI-powered hiring system to automatically analyze and evaluate resumes.
- Extracted structured candidate information from PDF resumes using automated parsing.
- Integrated GitHub profile analysis to assess candidates' technical activity and skills.
- Generated explainable candidate scores and rankings to support hiring decisions.
- Reduced manual resume screening effort by automating initial candidate evaluation.

Python Data Analysis Project — Academic / Self Project

- Developed Python-based applications focused on data handling, logic building, and problem-solving.
- Implemented data processing workflows using Python libraries and performed exploratory analysis.
- Worked with real-world datasets to practice data structuring, cleaning, and reporting.

EDUCATION

Master of Computer Applications (MCA)

Sept 2024 – Jun 2026

G H Raisoni Skill Tech University, Nagpur | CGPA: 6.04 / 10

Bachelor of Commerce in Computer Application (BCCA)

2021 – 2024

RTMNU University, Nagpur | CGPA: 6.69 / 10

CERTIFICATIONS

- Python Language Certification
